

**StatoilHydro is an integrated oil and gas company with operations in more than 40 countries. Clear and compelling company values and ethical standards, international award-winning environmental record, and an inclusive people perspective underpin StatoilHydro's operations everywhere.**

## **Authority Liaison and HSE Manager – central London**

StatoilHydro is Operator for the Mariner and Bressay heavy oil discoveries offshore UK. A project team is being established to further appraise and to bring the discoveries to development and production.

Reporting to the Vice President, Heavy Oil Project, the Authority Liaison and HSE Manager will be responsible for coordinating all Authority-related activities:

- liaising with external stakeholders including government departments, NGOs etc.
- ensuring that all authority requirements are understood and adhered to within the project team
- overseeing the timely completion of UK permits by the relevant operations departments
- establishing and monitoring HSE and quality assurance systems
- maintaining records, conducting audits and reviews

**For further information:**

**Please call Erik Tellefsen, Vice President Heavy Oil Project.  
Tel: +47 9162 8536 • Web: [www.statoilhydro.com](http://www.statoilhydro.com)**

Successful candidates will demonstrate up-to-date knowledge of and experience in UK Authority requirements and approval processes, EU regulations (particularly environmental) and the political agenda. They will also demonstrate extensive experience in UK oil & gas development and operations, and a talent for building strong relationships with internal and external departments.

Good communication and cooperation skills, a pro-active and structured approach to work and the ability to work independently are essential for the position.

**Full-time permanent position, available for immediate start.  
Excellent salary & package.**
